WORK EXPERIENCE

OCT 2024 - DEC 2024
UNIFIED MENTOR, GURUGRAM
Web Development Intern
MAJOR PROJECTS:

- **TaskHive**- A web app for your daily tasks in which you can create, edit, and delete your daily tasks and can access them from anywhere.
- **Cloud-Linker-** A place where you can keep and access documents and images from anywhere. It lessens the risks of losing crucial documents by uploading them to the cloud and is secured with your unique user ID safely with Google security.

JUL 2022 - OCT 2023
POLICYBAZAAR.COM, GURUGRAM
Associate Sales Consultant

- Assisted over 300 customers monthly in selecting suitable insurance policies, achieving a 15% sales increase.

CERTIFICATIONS

2024
TGC INDIA
WEB DESIGN COURSE

- HTML5, CSS3, Responsive Design, JavaScript (ES6+), jQuery, Bootstrap, React.js

PROJECTS

CRUD OPERATIONS WEB APPLICATION

- - Implemented Create, Read, Update, and Delete (CRUD) operations using React.js, Axios for API communication, and Formik/Yup for form validation.
- - Integrated React Toastify to enhance user notifications and ensure a seamless user experience.
- - Backend powered by Express.js, Node.js, and MongoDB for robust database operations.
- - **Achievements:** Improved data processing speed by 25% through optimized API calls.
- - **Live Demo:** **https://basic-crud-frontend-eight.vercel.app/**

LEGAL.SO - SERVICE-ORIENTED PLATFORM

- - Developed a responsive web platform connecting users with legal professionals. Features include lawyer profiles, ratings/reviews, consultation booking, and blog access.
- - Utilized Redux Toolkit for state management and Toastify for enhanced UI responsiveness.
- - **Achievements**: Increased user engagement by 30% through intuitive design and UX improvements.
- - **Live Demo:** **https://legal-so.vercel.app/**

UDEMY CLONE

- - Designed a functional clone of the Udemy platform using HTML, CSS, JavaScript, and jQuery for practice and skill enhancement.
- - **Achievements**: Strengthened understanding of layout design and responsive web principles.
- - **Live Demo:** **https://jasvinderkhera.github.io/udemy_clone/**

EDUFORD UNIVERSITY - EDUCATIONAL LANDING PAGE

- Created a responsive landing page showcasing university programs, events, and key features using HTML, CSS, and Bootstrap.
- - Achievements: Increased page load speed by optimizing CSS and assets.
- - **Live Demo:** **https://jasvinderkhera.github.io/eduford_university/**

FLATMATE - RENTAL WEBSITE

- - Developed a modern, responsive web application for flat rentals using React.js, CSS, and React Router for navigation.
- - Focused on optimizing UI components for better performance and user experience.
- - Achievements: Achieved seamless navigation and reduced UI load times by 15%.
- - **Live Demo:** **https://flatmatefrontend.vercel.app/**
